Buy DEPENDABLE Nursery Stock

POSTMASTER: If not delivered in 10 days, please show reason for nondelivery and return to us. Return postage guaranteed.

PACKING HOUSE AND STORAGE ROOM

We grow and handle all our stock in our first-class packing house. Immediately after trees are packed they are placed in the storage room, where all our trees and shrubs are kept. Our trees never suffer from exposure and are received by our customers in perfect condition.

JOE SHADOW NURSERY CO., WINCHESTER, TENN.

ACTUAL REPRODUCTION JUNE-BUDDED PEACH, SIXTY DAYS' GROWTH FROM BUD

ORCHARDS ARE GOOD INVESTMENTS.

Plant a Commercial Orchard, grow fruit on a big scale, and be independent. The above reproduction represents a block of JUNE-BUDDED PEACH TREES grown especially for commercial planting. We are in a position to furnish you June-Budded Peach Trees, Year-Old Apple Trees, and Year-Old Pear Trees for commercial planting in all leading varieties as long as our surplus lasts. The planting of commercial orchards has decreased alarmingly in the last ten years, and this is the time to plant orchards so as to be ready when this shortage in fruit is at its peak. PLANT AN ORCHARD NOW, AND YOU WILL NEVER REGRET IT.

	Each	Per 10	Per 100
5 to 7 feet, branched	60c	50c	40c
4 to 5 feet, branched	50c	40c	35c
4 to 5 feet, whips	35c	30c	25c
3 to 4 feet, whips	30c	25c	20c

You should plant Kieffer. Most popular canning pear on the market to-day.

PLUM—ONE YEAR OLD

	Each	Per 10	Per 100
4 to 5 feet, branched	75c	65c	50c
3 to 4 feet, branched	60c	50c	40c
2 to 3 feet, partly branched	50c	40c	30c
18 to 24 inches, Mostly whips	35c	30c	25c

Abundance Red June Wickson
These varieties are especially adapted to the South. Let us have your list.

LOMBARDY POPLAR

	Each	Per 10	Per 100
6 to 7 feet, branched	\$1 00	90c	80c
5 to 6 feet, branched	80	70c	60c
3 to 4 feet, partly branched	50	40c	30c

Lombardy is an excellent tree where rapid growth is desired and is used very much for street and avenue planting.

In making your purchases, do not seek low-priced stock; for dependable goods, in our line especially, are not grown by accident, and the best is none too good for you. We have made this business a lifetime job, and our success is due to the QUALITY STOCK we furnish. When we sell a customer, we feel that our relations are just beginning, as we continue to be interested in helping and advising at all times, and we are always glad to have you call on us.

WHEN TO PLANT. Time for planting is now here, and can be done any time from November until late spring in the South. We recommend November and December planting if possible, for often in the spring planting is delayed on account of spring rains.

TERMS. Cash should be sent with all orders to save time, either Money Order, Bank Draft, or Check; but we will ship C. O. D., provided one-fourth of amount is inclosed with order. Shipment will be made by express or freight, using our best judgment when no shipping instructions are given.

DISTANCE FOR PLANTING

	Feet Apart Each Way
